PLAIN & CROSSLINKED AGAROSE BEADS

TECHNICAL SPECIFICATIONS CROSSLINKED Agarose Beads Resins

BEAD GEOMETRY	Spherical														
CROSS-LINKED	Yes														
CHEMICAL STABILITY	Stable in very strong acid and basic solutions and also in dissociating reagents ⁽¹⁾														
MECHANICAL STABILITY	Suitable and comparable to commercial counterparts														
BEAD AGAROSE %	2%			4%			6%			8%			10%
